

Have you seen our minibuses driving around West Berkshire?

Our *Handybus* volunteer drivers are taking elderly and mobility impaired neighbours to shopping centres, social gatherings and wellness activities as one of the many services offered by *Volunteer Centre West Berkshire*.

Many local residents become socially isolated when they are unable to access local transport. *Handybus* offers a door-to-door service run by community minded, caring individuals who do not mind going that extra mile; but we can only continue to run this service with the support of the local community. That means you.

- Can you drive?
- Are you over 21?
- Are you a West Berkshire resident?

If so, we really need your help. *Handybus* are currently recruiting volunteer drivers for Newbury and Thatcham. Whatever your availability, we are sure there is a position available for you with the Handybus team and we cannot wait to meet you!

Please email *Handybus* at Handybus@vcwb.org.uk, or call our Area Coordinator on 01635 37111 to discuss your interest.

THANK YOU!
